<https://community.chocolatey.org/packages/clickshare-desktop/> Recently I have not been able to automate the downlo

Hi Andreas

I see no issue with you adding the app to your site, so this can go ahead. However, the app is updated regularly, so I guess it will get outdated unless it is maintained.

Regards

Andy

Hi Andy,

Thanks for following up on this.

It sounds promising that there is a feature request for this, but I understand it may take some time to get this implemented.

As a workaround until this is resolved, could I please get temporary approval to redistribute the installation file with the chocolate community package?

BR, Andreas
